Cindy Saxon and the TKES/LKES Team

For whom is the conference designed? Assistant Principals: who take care of the school’s operations but need a conference with their needs in mind (and here it is!); for New Principals who can use the elements of the conference in the most job-embedded fashion; for Aspiring Leaders who may be teachers, teacher leaders, instructional coaches, or other school people who would like to get behind the curtain and see what school leadership is really all about; and also, Current Principals, even those with years of experience who are dedicated to continuous professional growth.

The conference is directly aligned to the Leader Assessment on Performance Standards. There are eight segments, one for each of the performance dimensions for leaders.
